

All Arizona taxpayers qualify to donate and receive a tax credit in the amount of their donation (up to \$200 for single taxpayers or \$400 for married couples filing jointly). You do not need to have a child enrolled in school for your donation to be eligible for the state tax credit. You may qualify even if you've already donated to another non-public school entity (i.e., Working Poor, Private School).

Do I qualify to receive a tax credit?

Your donation will be designated to provide money for extracurricular activities such as field trips, after school clubs and innovations like robotics, technology focused experiences, in addition to athletic experiences, fine and performing arts and academic support programs.

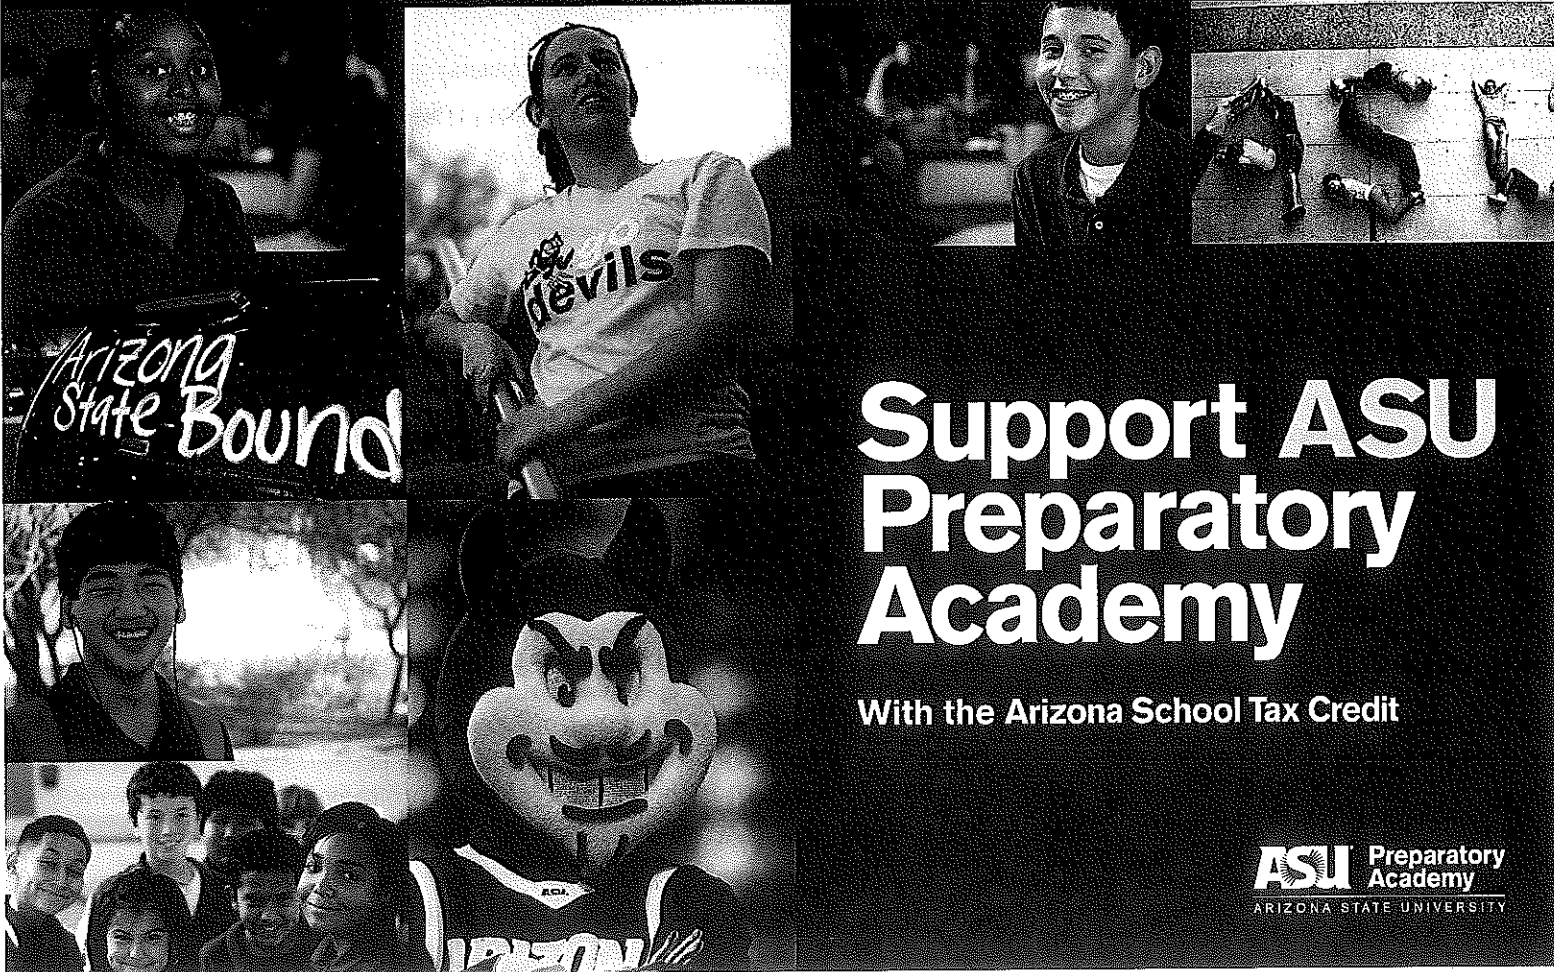

How will my donation be used?

A tax credit will allow you to reduce the amount of your income tax liability to the state (your state tax bill) or increase your refund from the state. Either way, you are sending tax dollars directly to the school of your choice instead of the Arizona Department of Revenue. Check with your tax consultant to see if you could also be eligible for a deduction on your federal taxes to the Internal Revenue Service.

Arizona Revised Statute § 43-1089.01 allows each state taxpayer to donate up to \$200 per year to public schools in support of extracurricular activities and claim a dollar-for-dollar state tax credit. Married couples filing joint tax returns may donate and claim a tax credit of up to \$400 per year (\$200 per person). Those who are married and filing separately each qualify for a \$200 maximum state tax credit.
